Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Discussed relevance of Yamada to claims 1 & 11, specifically regarding the clause "an identifying means for identifying a tempo...by the time interval detecting means." Applicant suggested adding a limitation regarding detecting a frequently occurring time interval and examiner agreed that such a limitation would most likely overcome the Yamada-based 102 rejection, as Yamada does not explicitly teach identifying a frequently occurring time interval.
